CONDO CORPORATION # 1513108
PO Box 45042, HIGHWOOD PO
HIGH RIVER, AB T1V 1R7**

May 27, 2019

Hello Sunvale Place Owners,

Isn't it great, days are getting longer, the sun is doing it's best to peek through the clouds and the grass is green?

Speaking of green grass, our irrigation system has been turned on for the summer. In our effort of cost cutting, we have decided to water on two days as oppose to the three we did last year. If we see that our lawns and trees are in need of more water, we will definitely go back to three days. At present our watering days are Wednesday and Saturday.

Other effective water savings approaches would be; not watering your gardens on Wednesday and Saturday and only if it needed on other days, not hosing down your driveway (sweep it instead), not washing your vehicle and I am sure there is a host of other ways to conserve, but these are a few that come to mind.

If you have any issues with sprinklers in your area please let us know as soon as possible and we will adjust it ourselves or have Farmboys come and make the adjustment.

For those of you living on the South side, we have turned the sprinkler system off for the time being, there appears to be a leak in the area of #3 and are we addressing it.

Regards

Barb Warner
